Final Phase I RFI/RI Work Plan at OU-8 Extension Request

Robert Benedetti, Acting Associate General Manager
Environmental Restoration Management
EG&G Rocky Flats, Inc.

The Colorado Department of Health (CDH) and Environmental Protection Agency (EPA) have granted our extension request for the Final Phase I RFI/RI Work Plan at OU-8. The revised deliverable date is December 1, 1992. Both the CDH and EPA letters granting the request are attached for your information.

Also find attached CDH, EPA, and EM-453 comments on the Draft Phase I RFI/RI Work Plan for OU-8 dated June 1992. We request that the final work plan be modified per the attached comments as well as informal DOE RFO comments. Note that this request also includes the discussion at the September 23, 1992, meeting with CDH and EPA regarding specific comments. Minutes from this meeting should be transmitted to DOE RFO by October 23, 1992. We further request that written responses to EM-453, CDH and EPA comments be prepared. Since CDH and EPA have granted our extension request for the Final Phase I RFI/RI Work Plan to December 1, 1992, preliminary versions of both the final work plan and the responses should be submitted to DOE RFO for review by November 14, 1992. This will, hopefully, enable DOE RFO to verify that the final work plan adequately incorporates DOE comments as well as comments from CDH and EPA.

Questions or concerns regarding this memorandum should be directed to Bruce Thatcher of my staff at extension 3532.

James K. Hartman
Assistant Manager
for Environmental Management
